Tin snip and Garden shear

Material: high carbon steel or chromium-vanadium steel

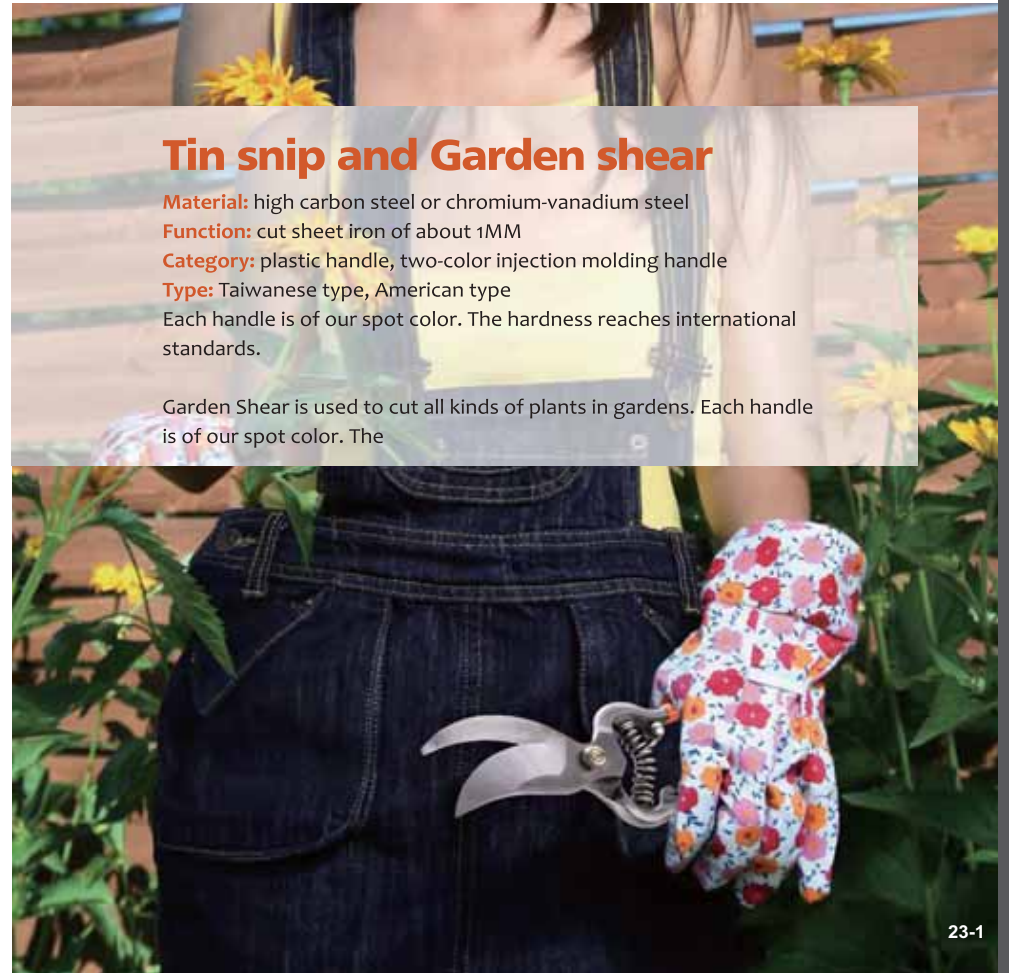

Function: cut sheet iron of about 1MM

Category: plastic handle, two-color injection molding handle

Type: Taiwanese type, American type

Each handle is of our spot color. The hardness reaches international standards.

Garden Shear is used to cut all kinds of plants in gardens. Each handle is of our spot color. The

Tape measure

Made up of casing and tape

Function: measure distance

Type: full plastic casing, rubber covered casing, Aluminum alloy casing, etc.

The thickness and accuracy of the tape reach international standards.

The casing is bright-colored, made of ABS.

The hook is of two kinds, magnetic and nonmagnetic

HSZ SERIES CHAIN BLOCKS

- HSZ series chain block is designed with a transmission mechanism of symmetrically arranged two-step spur gears.
- It can automatically brake with the friction plate and pawl brake system
- Tire high durability and efficiency make it popular all over the world as well as the high quality and competitive price.
- Main Performances and Technical specifications

HSZ-C SERIES CHAIN BLOCKS

- HSZ-C series chain block is advanced in design, reliable in quality and superior in appearance.
- It possesses good performances as HSZ series chain block.
- The advantages make it very popular in the market at home and abroad as well as low cost and low price.
